FLORENZ'LAMP

È arrivato il momento di vedere il mondo sotto una nuova luce. Le sorgenti luminose a tecnologia LED rappresentano una valida alternativa ai tradizionali sistemi di illuminazione sia per i ridotti consumi che per le proprietà funzionali: una soluzione efficiente e moderna per arredare e illuminare qualsiasi ambiente interno o esterno sia domestico che professionale.

CARATTERISTICHE A CONFRONTO				
	LED	INCANDESCENZA	ALOGENA	FLOURESCENTE
Potenza	10 Watt	100 Watt	70 Watt	20 Watt
Durata media in ore	25>50.000	1.000	2>4.000	8>12.000
Consumo	basso	alto	medio	basso
Modularità	alta	bassa	bassa	bassa
Gamma colori	infinita	bassa	bassa	bassa
Calore	basso	alta	alta	media
Manutenzione	bassa	alta	alta	media
Emissioni UV	assenti	alta	alta	media
Velocità accensione	istantanea	istantanea	istantanea	lenta

PROGETTATE PER DURARE NEL TEMPO

Non è necessario sostituire le lampadine LED ogni anno. A differenza di quanto avviene per quelle tradizionali più delicate, la vita media dei LED può superare le 50 mila ore l'assenza di filamenti e componenti sensibili agli shock termici e meccanici.

Questo si traduce in un evidente risparmio non solo sul costo di acquisto che viene ammortizzato in più anni, ma anche su quello di manutenzione che nei sistemi tradizionali può essere superiore al costo della lampadina stessa.
