Swarovski

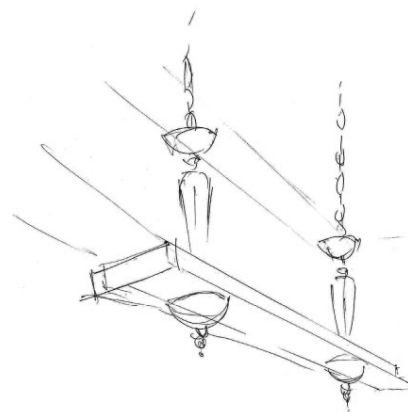

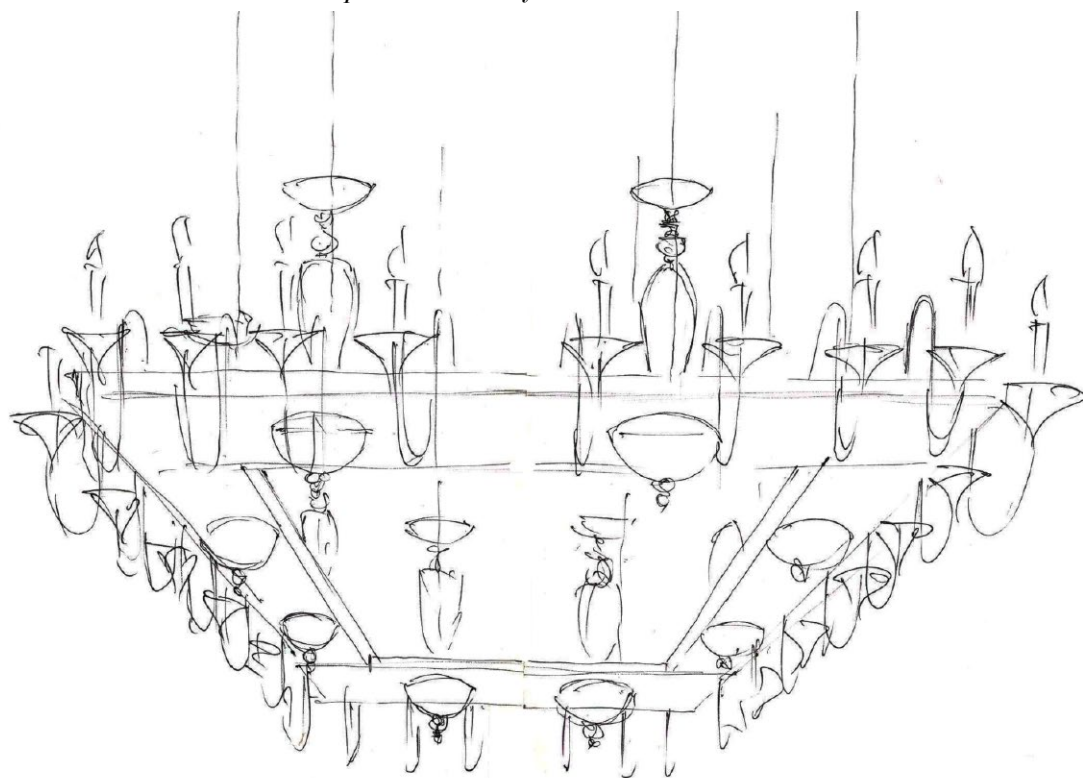

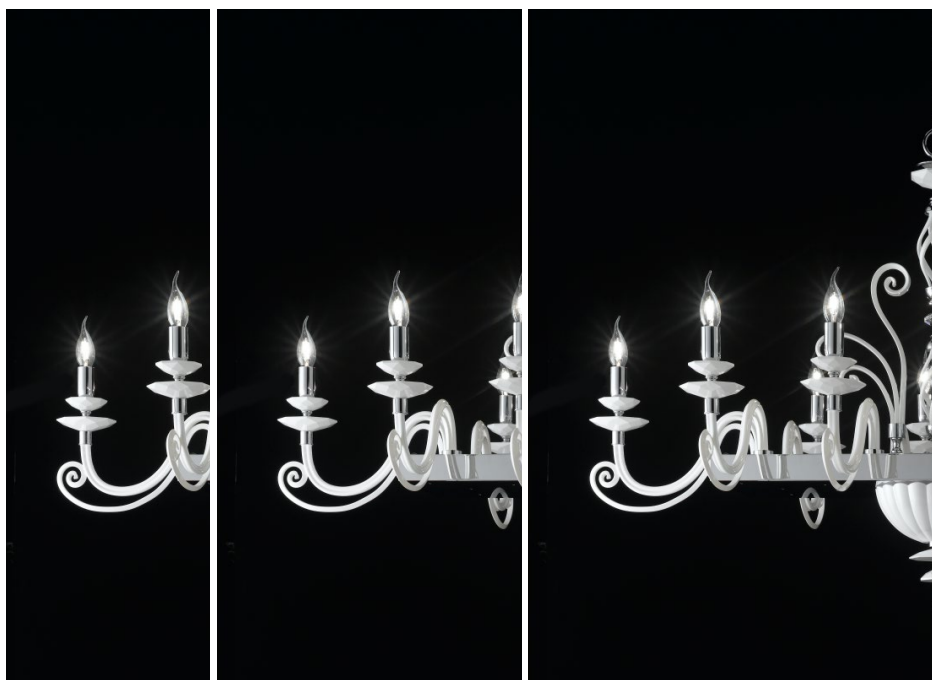

Barocco Axis 14

AXIS nasce come sospensione rettangolare versatile e adattabile ai diversi ambienti. Le ipotesi illustrate di seguito sono solo alcune delle svariate combinazioni possibili. La sospensione AXIS può avere tre differenti misure e, combinate fra loro possono assumere diverse forme e adattarsi al meglio all'ambiente in cui verrà collocata. Inoltre l'attacco a soffitto da un unico punto consente l'elettrificazione di tutta la combinazione, senza la necessità di spostare l'effettivo punto luce.

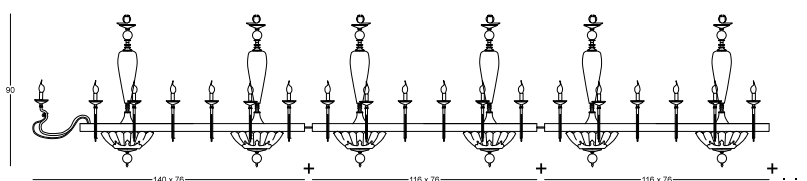

AXIS è un sistema a cui possono essere adattate tutte le nostre collezioni.

Scegli la collezione Euroluce Lampadari che preferisci, indicaci la combinazione ideale e noi provvederemo a costruire la sospensione AXIS più idonea. Non esitare a contattarci per ulteriori info.

Continuous Axis

Axis a "Elle"
"L" Axis

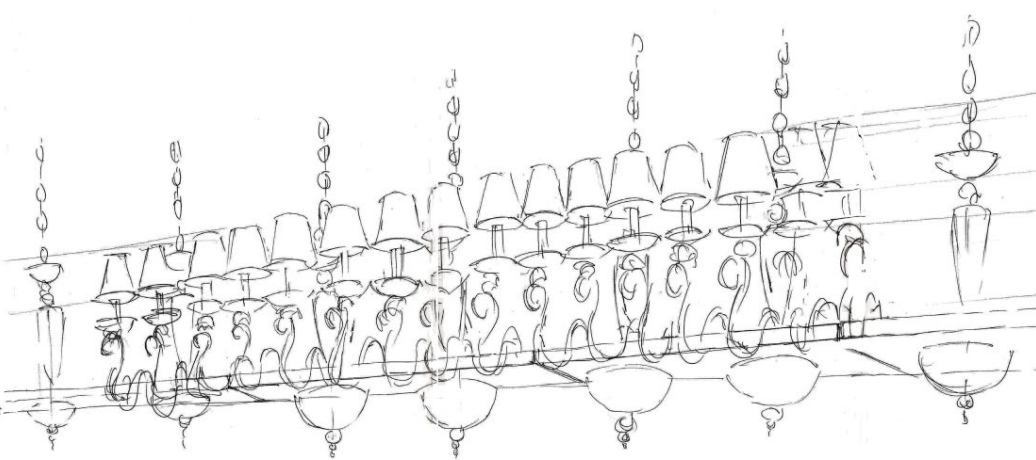

AXIS is created as rectangular suspension versatile and adaptable to the different ambience. The examples presented here below are just a few of the many possible combinations.

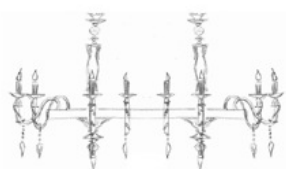

The single suspension AXIS can have three different sizes: 10 lights, 12 lights and 14 lights, and assembled with others single suspensions, can take different forms and better adapt to the ambience where it is located. Furthermore, the ceiling attachment in the single point allows the electrification of the whole combination, without moving the existent light point.

AXIS is a system that can be adapted to all our collections. Please choose any collection of Euroluce Lampadari that you prefer, indicating the perfect combination and we will create the suspension AXIS most suitable to the chosen collection.

Do not hesitate to contact us for more info.

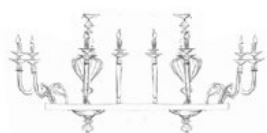

Per ogni collezione dei cataloghi puoi richiedere la versione Axis.
You can request Axis version for each collection of catalogs.
